## Abstract

This document provides a template for ACL 2026 submissions. ACL is a premier venue for computational linguistics and natural language processing research. The abstract should concisely describe your problem, approach, and key results.

## 1 Introduction

ACL 2026 submissions should follow the ARR (ACL Rolling Review) unified style. The page limit is 8 pages for long papers and 4 pages for short papers, excluding references.

## 2 Related Work

Discuss relevant prior work in NLP and computational linguistics.

## 3 Method

Describe your approach:

$$P(y|x) = \frac{\exp(f(x, y))}{\sum_{y'} \exp(f(x, y'))}$$

## 4 Experiments

Present results on standard NLP benchmarks:

Table 1: Results on GLUE benchmark.

Model	MNLI	SST-2
BERT	84.6	93.5
Ours	<b>87.2</b>	<b>95.1</b>

## 5 Conclusion

Summarize your contributions.

## Limitations

**Mandatory Section:** You must include a section about the limitations of your work. This section does not count towards the page limit.

## Ethics Statement

Scientific work published at ACL 2026 must adhere to the ACL Ethics Policy.
