## 6 Conclusions

Summary of the work and future directions.

## Abstract

The abstract should be 100 to 200 words and provide a concise summary of your paper. Interspeech is the world's largest conference on speech and language processing, covering topics from speech recognition to synthesis and spoken language understanding.

**Index Terms:** speech recognition, human-computer interaction, computational paralinguistics

## 1 Introduction

The paper layout should be a maximum of 4 pages for technical content, plus up to 2 pages for references only. Interspeech covers a wide range of topics in speech science and technology.

## 2 Related Work

Discuss relevant prior work in speech processing, recognition, and synthesis.

## 3 Method

Describe your approach:

$$y(t) = \sum_{k=1}^K a_k \sin(2\pi f_k t + \phi_k) \quad (1)$$

## 4 Experiments

Present experimental results:
